Confirmit Horizons: Change Log

This document summarizes all suggestions that have been implemented and bugs that have been fixed in Confirmit Horizons Version 18.5.

Issue Type	Key	Summary	Fix Version/s
Suggestion	AM-250	Triggers: "Backup" User for Auto Assignment	
Suggestion	AM-334	In Splunk the UserId's don't match	
Suggestion	AM-491	Triggers List: Pause All Triggers in Program	
Suggestion	AM-585	Workflow Rule: Edit/Delete Notes	
Suggestion	AM-745	Manage Case: Allow User to Email Survey Respondent	
Suggestion	AM-967	enable Run tests on build machine Selenium	
Suggestion	AM-1089	Store unit test coverage results after build	
Suggestion	AM-187	Conditional rules for workflows	18.5.2193
Suggestion	AM-189	Export contents of Case List page to Excel	18.5.2193
Suggestion	AM-194	Triggers	18.5.2193
Suggestion	AM-204	Data Fields	18.5.2193
Suggestion	AM-206	Filters	18.5.2193
Suggestion	AM-210	Send an email from the Manage Case UI	18.5.2193
Suggestion	AM-214	Initial landing page for Action Management	18.5.2193
Suggestion	AM-216	Export Case Logs	18.5.2193
Bug	AM-1034	Case List: Filtering on Custom List Items does not work.	
Bug	AD-322	Double Byte characters not displaying properly in the Hub list for Active Dashboards	
Bug	AWB-596	Key Trends: Tighter spacing for title needed	
Suggestion	AUT-108	Survey permissions list to include active users only (not expired/inactive)	18.5.740
Suggestion	AUT-447	Generate V18.5 web service plus test project and create WSDL	18.5.243
Suggestion	AUT-584	Professional user expiry date should be compulsory	18.5.521
Suggestion	AUT-608	Additional user confirmation when assigning certain permissions to users/groups/roles	18.5.524
Suggestion	AUT-815	Remove message that you are using an unsupported browser for IE11 in V17.5	
Suggestion	AUT-822	Display full version number in help about in authoring	18.5.2210
Suggestion	AUT-1026	Option: Prevent normal login for SSO enabled users	18.5.2749
Suggestion	AUT-1310	Answerlist behaviour on Chrome	
Bug	AUT-87	ConfirmitAdmin tool cannot be used to ImportSurveyBatch	18.5.2749
Bug	AUT-208	Export - Import of a specific SurveyLayout resets the MobileLayout	18.5.1733
Bug	AUT-426	Incorrect logging of "Project exported" to designer log	18.5.67
Bug	AUT-467	"Cannot get value because it is DBNull" error being returned when using SchemaSourceTypeRunTimeProduction in projects with loops	18.5.11
Bug	AUT-480	Restored projects do not have closed status once restored	18.5.178
Bug	AUT-489	Not able to save changes in Questionnaire Reviewer	18.5.643
Bug	AUT-555	New Survey wizard - Adding languages in Chrome does not show up	18.5.182
Bug	AUT-561	Quotas->Recalculate All Quotas results in 403 forbidden error on Firefox	18.5.389
Bug	AUT-581	Authoring WS: Changes in routing are not reflected when updating questionnaire	
Bug	AUT-615	Archiving: unable to connect to legacy database for restored archived projects, when 'Enforce optimized data storage' is set on company level	18.5.1891
Bug	AUT-632	Questionnaire Reviewer URL not using ConfirmitURL	18.5.1789
Bug	AUT-650	Text change in help text for mobile layout designer	18.5.470
Bug	AUT-673	Help links must be updated	18.5.197
Bug	AUT-683	Internal Server Error in Home > Company > Default Survey Settings	18.5.2830
Bug	AUT-722	Once companies are created, Add Ons cannot be added, Reportal Licences, Flex, etc.	18.5.578
Bug	AUT-792	Loading users in admin takes 14sec in SaaS environments	18.5.1948
Bug	AUT-797	Cannot create Express users without SYSTEM_ACCOUNT_READ permission	18.5.1948
Bug	AUT-893	Aborted option reset to not ticked in user options	18.5.1671
Bug	AUT-913	Internal Server Error when loading a professional users details, if ElevatedPermissionsList setting in SystemConfig is empty	
Bug	AUT-1078	Questionnaire tree stops working after the latest Chrome update (43)	18.5.1997
Bug	AUT-1118	Survey property "Enable database encryption" is not copied across when duplicating a project with this property True	18.5.2830

Issue Type	Key	Summary	Fix Version/s
Bug	AUT-1130	Adding start/end callblocks via Authoring API Update fails if those blocks have been deleted via DeleteQuestionnaire	18.5.3270
Bug	AUT-1212	Instead of getting DuplicateLoginDetection emails, this error is thrown: "FormatException String was not recognized as a valid DateTime."	
Bug	AUT-1287	Importing v17.5 files into v18+, the import does not use the Default survey settings templates (either user, company, or systemwide)	18.5.3315
Bug	AUT-1292	The order of nodes has changed in the return of a call to WS method GetNodes in 18.0	18.5.3210
Bug	AUT-1319	Get Respondents method may return incorrect URL	18.5.3210
Suggestion	CAPI-84	Change Survey Menu Item Order	
Suggestion	CAPI-106	View CAPI Sync log for all companies	
Suggestion	CAPI-107	Display number of activated and available licenses in the CAPI console management screen	
Suggestion	CAPI-108	Ability to export the CAPI Synchronisation log	
Suggestion	CAPI-139	Android CAPI app minimum version and enforcing minimum version system config settings	
Suggestion	CAPI-142	Improve imageupload question rendering in Android CAPI App	18.5.2761
Suggestion	CAPI-309	iOS OS filter on CAPI Console management page	
Suggestion	CAPI-310	Activated device counts to reference iOS counts	
Bug	CAPI-21	UI issues with Android OS 5	
Bug	CAPI-61	Update enforce encryption help text	
Bug	CAPI-90	In capi app the postpone interview pop-up window should be reopened if you try to go on with no description	
Bug	CAPI-93	CAPI - Interviewers are seeing cases where when attempting to start a new interview it appears a previous respondent's data comes up	
Bug	CAPI-103	Emailing from CAPI via Email node in questionnaire tree sends an email with no body content	
Bug	CAPI-112	Default language is not identified with multi-language surveys	
Bug	CAPI-126	In Windows CAPI test mode layouts are not applied correctly	
Bug	CAPI-130	Sliders are not shown in windows CAPI console	
Bug	CAPI-134	Android App Crash on start when app has been sitting in the background for 24+ hours (with logged in user and surveys on home page)	
Bug	CAPI-137	In windows CAPI console resizable open text works incorrectly	
Bug	CAPI-138	There is no date icon near the date question in Windows CAPI console	
Bug	CAPI-174	CAPI channel help text appears even if the CAPI/Kiosk add-on isn't enabled	18.5.1948
Bug	CAPI-180	Multi-line email causes Windows CAPI sync failure (requires new CAPI Console)	18.5.2326
Bug	CAPI-254	After upgrading a Client side script in a CAPI for Windows survey causes page submission to fail	18.5.2761
Bug	CAPI-255	Changing JavaScript engine survey setting has immediate effect in Android without launch	18.5.2761
Bug	CAPI-256	Surveys postponed on Windows devices show as "Cancelled" in Android based devices	
Bug	CAPI-288	Fast Forward on Android 5.x doesn't fast forward	
Bug	CAPI-328	Internal error when paging in console management	
Bug	CAPI-331	Windows CAPI Console synchronization error 'custom code files download failed'	18.5.3050
Bug	CAPI-332	Android App crash when start survey with Traditional Chinese System language	
Bug	CAPI-335	Android App crash when start app with system languages Norwegian	
Bug	CAPI-341	Issues when changing system language	
Suggestion	CATI-20	77324 Export video part of deferred monitoring of an individual Interview	
Suggestion	CATI-34	79356 Login/Logout time (capture source data)	18.5.292
Suggestion	CATI-94	75950 Ability to hide/add columns in the Respondent Info Selection interface when in Manual or Survey selection	
Suggestion	CATI-111	Production: Error occurred during replication respondent	
Suggestion	CATI-137	Quota balancing enhancements	
Suggestion	CATI-246	View login and logout events for interviewers	
Suggestion	CATI-257	71391 Show survey ID in Multimode Synchronization queue	18.5.155
Suggestion	CATI-302	Export login and logout events for interviewers	
Suggestion	CATI-323	Support playback of exported video recording	
Suggestion	CATI-324	Export audio and be able to playback with saved video recording	
Suggestion	CATI-334	Support for language background variable to set the survey language automatically	
Suggestion	CATI-411	Monitoring does not scroll to the bottom of the question screen	
Suggestion	CATI-453	Continuous Deployment to support CATI and Monitoring Console installation	
Suggestion	CATI-458	Make it harder to accidentally remove the multimode instance in the Admin tab	18.5.264
Suggestion	CATI-468	Ability to assign a call to more than one group (back end work)	
Suggestion	CATI-475	AddRespondentToCati behaves incorrectly	
Suggestion	CATI-477	77663 CATI Ability to use GetCallAttemptCount() in a scheduling script	
Suggestion	CATI-480	Ability to filter productivity reports by a set time period within a wider time range	
Suggestion	CATI-482	Management event logging for Sync Queue errors	
Suggestion	CATI-502	Ability to expire calls sent to the dialer in predictive surveys	
Suggestion	CATI-522	When shutting down a survey automatically move call state from -2 to 2	
Suggestion	CATI-523	Ability to apply CATI survey settings via the API	
Suggestion	CATI-530	Ability to view the most high priority calls of the moment (active list)	

Issue Type	Key	Summary	Fix Version/s
Suggestion	CATI-557	Ability to separate dialing of mobile numbers to be manually dialed when using an autodialer	
Suggestion	CATI-563	Implementation of version control for common dialer API	
Suggestion	CATI-565	Ability to include replicated variables in the Call History export	
Suggestion	CATI-577	Make final "multiple assignment" design	
Suggestion	CATI-578	Modify Call History export to include the survey name for Interviewer Break information	
Suggestion	CATI-601	Capture alternative number from redial menu	
Suggestion	CATI-649	Change Database update process to support non-disruptive update deployment	
Suggestion	CATI-652	Ability to supply an individual Caller ID (CLID) per respondent	
Suggestion	CATI-663	Move DB maintenance thread into the default instance	
Bug	CATI-44	68719 Allow for the user for custom Extended Status Lists to be able to be assigned to Call Groups	
Bug	CATI-439	CATI monitoring with 'answer other' does not always accurately reflect changes when two characters are entered quickly	
Bug	CATI-447	'Calls sent to Dialer' view must be shown only for predictive surveys	
Bug	CATI-455	CATI console clears focus preventing execution of onblur event	
Bug	CATI-467	Interview receive CallState = -1 after attempt to start.	
Bug	CATI-469	If Console.ShowRedialButtonSetting set to False, Console should not display redial button	
Bug	CATI-470	Redial form should not cut non digit chars from typed phone number	
Bug	CATI-471	Redial: Logout invoked twice if terminate task performed during redial	
Bug	CATI-478	If the Supervisor terminates the agent task while redialing - the CATI console isn't closed	
Bug	CATI-484	Monitoring console issue: recorded interview already started but there is no information in monitoring status bar	
Bug	CATI-493	Save offline playback button should be greyed out until both (video and audio) parts displayed on screen	
Bug	CATI-515	Redial default number after new number dials the new number	
Bug	CATI-535	Interviewers List - Activity View displays interviewers working on surveys that the Supervisor should not see	
Bug	CATI-562	Internal Error when opening Supervisor surveys list	
Bug	CATI-568	Internal server error occurs on attempt to load Interviewer sessions report	
Bug	CATI-572	Unexpected task persistence for interviewer when logging out from the manual survey selection screen	
Bug	CATI-591	Negative value showing for count of 'Not attempted' calls in "Number of Attempts" report	
Bug	CATI-594	System.Deployment.Application.DeploymentException: Cannot activate a deployment with earlier version than the current minimum required version	
Bug	CATI-599	CATI Supervisor: Call management - Internal server error on attempt to sort interview by dialling mode.	
Bug	CATI-605	Daily Scheduled email "Call History report" is not sent	
Bug	CATI-607	Resolves several issues in Call history export (concerning login and logout events for interviewers)	
Bug	CATI-608	Special dial mode: During add sample "Special dial mode" value (5) for dial mode is not executed correctly	
Bug	CATI-609	Special dial mode: It is impossible to use "Special dial mode" value (5) in a scheduling script action	
Bug	CATI-610	Resolved issue where Call History export is performed incorrectly in Internet Explorer	
Bug	CATI-612	Resolved issue where a date time filter in Call History export works incorrectly in Russian locale	
Bug	CATI-620	Resolved some small issues in Routine maintenance settings in CATI Supervisor	
Bug	CATI-624	Resolved error while processing scheduled CallHistory report	
Bug	CATI-627	Resolved issue where exclusive answer selections were not handled correctly in searchable multiple questions	
Bug	CATI-630	Deadlock on attempt to update statistics during database maintenance	
Bug	CATI-638	Weekly actions during routine DB maintenance are performed on the incorrect day of week	
Suggestion	HUB-30	When an open text question has the new "Single in reporting" property, hub loader should store it as a categorizable OpenTexts in the column store so that it can be reported as if it was a single question.	18.5.36
Suggestion	HUB-49	Remove link from survey to Contact Database	18.5.2735
Suggestion	HUB-82	Add new question to Combined Data Source with an id that already exists.	
Suggestion	HUB-100	Expand questions (single/ multi question) in combined data source to see answers and answer codes	18.5.578
Suggestion	HUB-321	Log and display changes in excluded field settings for panel in the system activity	18.5.895
Suggestion	HUB-322	New system permission for administrating security settings for panel	18.5.389
Suggestion	HUB-550	Improve messaging in task logs when combining datasources	
Suggestion	HUB-609	Ability to see a panelists sum of credits in the credit editor	18.5.578
Suggestion	HUB-620	Panel setting for exclude fields from export	18.5.232
Suggestion	HUB-740	Survey data Imports: "Append data" requires a "Key field"	18.5.67
Suggestion	HUB-764	GetAdditionalColumnValue() method function should be available in Data Processing Scripting	18.5.67

Issue Type	Key	Summary	Fix Version/s
Suggestion	HUB-803	Ability to get labels of items in db designer tables	18.5.578
Suggestion	HUB-828	Filter on errors in combined datasources	18.5.831
Suggestion	HUB-829	Search for qid in combined datasources	
Suggestion	HUB-866	Additional survey system variables added to hubs	
Suggestion	HUB-894	Automapping should disregard types (hidden, background, normal) when mapping questions in Combined Datasources	
Suggestion	HUB-896	Prevent the unlinking of survey from panels	
Suggestion	HUB-971	Data processing rule loses mappings if the mapping button is clicked and the source file is not in the FTP location	18.5.1597
Suggestion	HUB-1028	Text on deleted hubs and deleted sources page should reflect config settings for days kept	18.5.1795
Suggestion	HUB-1044	Display if questions belong to a 3Dgrid, reusable lists, loopreference questions	18.5.2533
Suggestion	HUB-1096	Support joining between Action Management and Combined Sources	
Suggestion	HUB-1152	Ability to set sender address in ResetPassword in Portal Flex extension	
Suggestion	HUB-1153	Retrieve and Set Panelist Credits through Flex Panel Portal API	
Suggestion	HUB-1164	Add support for versioning in text analytics	18.5.3315
Suggestion	HUB-1335	Change automapping rules for combined to require that for questions with reusable lists, all questions mapped have to use the same reusable list across sources	18.5.2990
Suggestion	HUB-1373	Create console application to populate survey object in Salesforce with data	
Suggestion	HUB-1374	Salesforce app to set up and show survey responses in the contacts view	
Suggestion	HUB-1395	Extend TransferDef so that it can support forms from different levels, returning joined table	18.5.2990
Suggestion	HUB-1518	Shrink hub databases after complete loads.	18.5.3210
Suggestion	HUB-1545	Contact database synchronization doesn't work for existing records when respondent data is generated in other ways than normal respondent upload, like for example autosync from CSAT	18.5.3315
Bug	HUB-311	Remove obsolete task types from Authoring.	18.5.2427
Bug	HUB-549	Randomly when a customer is sending out Batch Emailing - Fixed domain they get a permissions denied error.	18.5.1
Bug	HUB-606	Export to Excel 2007 generates .xlsx that's not possible to open in Excel	18.5.36
Bug	HUB-639	SmartHub: Unable to add users from another company	18.5.389
Bug	HUB-641	Tooltips cover each other on the Field Mapping page	
Bug	HUB-676	Fields for multigrid question should have "multi" icons in Combined Sources	
Bug	HUB-704	Hub loader sometimes fails if the same survey is mapped to a Contact Database during the load	18.5.676
Bug	HUB-713	Field text in combined survey contains HTML which breaks alignment of field	18.5.389
Bug	HUB-727	Combined source: Cannot scroll surveys (columns) with arrows	18.5.578
Bug	HUB-736	Overriding filename of rule results in internal server error	18.5.232
Bug	HUB-739	Survey name is no longer saved in Survey History	18.5.578
Bug	HUB-745	Scheduled tasks still runs after the associated project is deleted	
Bug	HUB-746	Interval not working for weekly recurring tasks set to run on Saturday	
Bug	HUB-763	Error when installing license on site in UTC+ timezones	18.5.578
Bug	HUB-833	HUB Loader fails when background question is in master while missing in a survey.	18.5.578
Bug	HUB-847	Contact database is not deleted when creation of the contact database fails	
Bug	HUB-860	Automate Sampling puts batch email tasks on queue with schedule time based on local client time settings	
Bug	HUB-864	DP Rule Key Field dropdown reverts back to responseid on Save	18.5.341
Bug	HUB-888	Bulk API create/update operations via HTTPS fail when servers sit behind SSL accelerators	18.5.2735
Bug	HUB-893	Incorrect xml in matrix export (Panel)	18.5.2307
Bug	HUB-902	Loading combined source fails for long texts	18.5.578
Bug	HUB-997	Unable to Delete Hub when task definitions have been deleted	18.5.3367
Bug	HUB-998	Error message when opening a panelist in Single panelist editor if you have Legacy panelist credits	18.5.831
Bug	HUB-1037	Hierarchy import of un-encrypted files do not give any ui warnings	
Bug	HUB-1052	Normal user gets permission denied when trying to restore archived projects	
Bug	HUB-1055	Can't save mapping if you add a grid question (or a grid question inside a 3D grid) where a reusable list is used for answers	18.5.1997
Bug	HUB-1059	When adding questions to a combined source, manual mapping is overridden by automapping rules if questions have the same id as the manual mapping	18.5.1997
Bug	HUB-1060	Reserved keyword list used when combining datasources should be consistent with the list used in Authoring	18.5.1795
Bug	HUB-1069	Hub loader not loading data for multigrids.	
Bug	HUB-1071	Panel Rule to delete panelists triggers error if Aggregated variable is used in filter expression	18.5.1597
Bug	HUB-1073	Contact Frequency Rules are case sensitive, so fail to block emails when there are differences in upper case/lower case in contact ids	
Bug	HUB-1074	Upload feature 'Validation of answers and codes for Single questions' isn't working	18.5.1597
Bug	HUB-1075	"Data changed since last run" should include data changed since last SUCCESSFUL run, not last attempted run	18.5.1597

Issue Type	Key	Summary	Fix Version/s
Bug	HUB-1078	Respondents Upload: "Validation of answers and codes for Single questions" option is not working for labels with a single character	18.5.1597
Bug	HUB-1088	Recorded variable, panel variable (hidden/visible) cannot be mapped with normal/hidden/background variables and are ignored in the combined source	
Bug	HUB-1089	Search filter works incorrectly due to mismatch between combined datasource and original source	
Bug	HUB-1114	"Can't map fields" error message which appears in case of an internal server error should be replaced with a more adequate error message	
Bug	HUB-1118	Contact Frequency Rules not applied if you upload duplicate respondents in the same batch upload	18.5.1693
Bug	HUB-1138	Remove wildcard search for TaskID in TaskSystem views	18.5.2427
Bug	HUB-1139	Panel: Not possible to create a mobile portal without selecting a template	18.5.2307
Bug	HUB-1148	Export tasks aborts when survey contains a question with id "language"	18.5.1597
Bug	HUB-1171	DP Rule data import fails for surveys with external respondent creation enabled.	18.5.1948
Bug	HUB-1179	Apply Contact Frequency Rules for duplicates in the same batch emailing	18.5.1891
Bug	HUB-1201	Respondent upload task hangs if the "Validation of answers and codes for Single questions" setting is checked off and there are no single question set as background variable	18.5.2102
Bug	HUB-1206	Unable to save combined source if mapping a question manually and then adding the same question id	18.5.1997
Bug	HUB-1211	HTML codes are rendered for the question text when removing question mapping in combined source	18.5.1997
Bug	HUB-1219	Contact Frequency Rules (CFR) should ignore implicit hubs and hubs where the source is not linked to any contact database	
Bug	HUB-1222	noOfEmailsSent field being set to 0 when updating data using data processing rule based on user defined key field	18.5.1821
Bug	HUB-1234	DP Rule Action Script 'Validate Action Script' overlay window has wrong title	18.5.1795
Bug	HUB-1264	Hierarchy question not included in data exports from contact database	
Bug	HUB-1267	CFR is wrongly applied when sending reminders to contacts that were emailed before CFR was set up for a survey	
Bug	HUB-1268	Create button missaligned in IE11	18.5.2360
Bug	HUB-1287	DB designer tables with characters in "id" column when used as loop answerlist in survey cause error when generating template	
Bug	HUB-1349	Company administrators and ProS users get permission denied when accessing end user lists they don't have explicit permissions to	18.5.2360
Bug	HUB-1353	Dates outside allowed values in SQL datetime variables in background variables in respondent data causes hub loader to fail	
Bug	HUB-1378	Quotes in hub name is shown as HTML numbers	18.5.2990
Bug	HUB-1392	Create Reporting Data does not detect existing tasks	18.5.2735
Bug	HUB-1400	Attempt to Create Combined Data Source Results in "Could not combine surveys" for old surveys (pre v18)	
Bug	HUB-1417	Contact database type is not selected when cdb is creating from default contacts page.	18.5.3367
Bug	HUB-1420	FixedMultiAnswerCode System Configuration not working on specific server installs	
Bug	HUB-1423	HTML code shown in the "Create/edit contact database" dialogs	
Bug	HUB-1427	SystemArgumentException when adding a closed project to a hub	
Bug	HUB-1431	Contact db in hub: Unable to unlink survey if the user is not admin.	
Bug	HUB-1451	Nested DateAdd expressions incorrectly calculate date within Panel Aggregate Variables	
Bug	HUB-1452	Internal server error in column selector in DP rules when codes in loop is longer than 50 characters	
Bug	HUB-1465	Process2 on US: An item with the same key has already been added	
Bug	HUB-1470	GetCategories() and GetQuestionsByCategory() doesn't work with a combined datasource	18.5.2990
Bug	HUB-1471	Create your first hub is not center aligned	18.5.3367
Bug	HUB-1600	Surveys can not be added to combine source if reusable list ID starts with a number	
Suggestion	IA-26	Grant/ Revoke selected end user permissions for end user reporting	18.5.214
Suggestion	IA-65	Responses export to Excel should take into account weight settings	
Suggestion	IA-69	Add filter summary to exported responses page	
Suggestion	IA-75	Limit Data Export to 10,000 records only.	18.5.2296
Suggestion	IA-79	Add "Show verbatim responses" as a separate permission	
Suggestion	IA-80	Take into account "Exclude from reporting" property when performing raw data exports	18.5.214
Suggestion	IA-102	List of existing saved segments	18.5.3451
Suggestion	IA-103	Counts shown when weighting applied should be rounded to no decimal places	
Suggestion	IA-109	Responses tab: Support for Std Deviation statistic	18.5.1948
Suggestion	IA-110	Responses tab: Support for Std Error Statistic	18.5.1829
Suggestion	IA-112	Loop iteration answer label is not being displayed for grid questions	18.5.2296
Bug	IA-37	Adding a filter removes the banner	18.5.214
Bug	IA-82	'View quotas' permission in End User List also grants access to 'verbatim'	
Bug	IA-87	Error - Cannot read property 'parentNode' of null error when making filter panel updates for a saved report	18.5.214

Issue Type	Key	Summary	Fix Version/s
Bug	IA-90	Responses page of Instant Analytics report is not opened	
Bug	IA-92	"\n" symbols are not shown in Instant Analytics report	
Bug	IA-95	'Total' value is incorrectly displayed in charts	
Bug	IA-96	Titles of question for only one language on Responses page	18.5.626
Bug	IA-98	"Unable to get property 'parentNode' of undefined or null reference" when making filter panel updates	
Bug	IA-99	Wrong window after assigning permissions for end user reporting to multiple users and saving	18.5.728
Bug	IA-100	Wrong Chart for Multi variable in Loop	
Bug	IA-113	Exclude from reporting property does not take into account when performing raw data exports to SPSS	18.5.1829
Bug	IA-115	Questions excluded in question dropdown on responses tab still included in export	18.5.2025
Bug	IA-126	Permission denied when enduser tries to download data from IA report	18.5.2193
Suggestion	PA-156	Android Min OS - raise to 4.0	
Suggestion	PA-168	Increase minimum iOS level to iOS 7 for Panel app	
Bug	PA-76	There is no indication of failed to send push message to device	
Bug	PA-115	Panel App push not working	18.5.371
Bug	PA-116	Keyboard Go button on the login page does not work	
Bug	PA-170	Responding to push notification on Android 4.4 & Android 5 crashes the app	
Bug	PA-186	Cannot connect to panel with iOS8 devices	
Bug	PA-358	Cannot retrieve Survey List when the user is assigned a test survey	18.5.3289
Suggestion	REP-17	Support secondary Y axis for Highcharts	18.5.1948
Suggestion	REP-120	Allow page scripts to run in PPT and Excel exports	18.5.626
Suggestion	REP-126	Ability to include children when referencing hierarchies in hide scripts	
Suggestion	REP-146	Do not show Reportal reports if company has opted out of pros user access	18.5.2516
Suggestion	REP-182	When duplicating a Report or report elements we should not duplicate soft deleted items	
Suggestion	REP-271	Support of new Hub variable type (CategorizableText) in Reportal	
Suggestion	REP-272	Support use of Categories from variable type CategorizableText in Reportal	
Suggestion	REP-300	Remove 'Last updated' column from end user portal	18.5.214
Suggestion	REP-363	Ability to export end user list	18.5.1829
Suggestion	REP-386	Sort function on items in the Login Welcome page Reportal for End users	18.5.626
Suggestion	REP-473	Filter column on end user list	18.5.214
Suggestion	REP-474	Allow end user permissions upload with filter column	18.5.470
Suggestion	REP-542	Consistency lacking in the ordering of items in Banner Parameters when dragged over in bulk	
Suggestion	REP-560	Pagination for SingleView	
Suggestion	REP-572	Click on dashboard in the list should open the dashboard	18.5.470
Suggestion	REP-607	codelibrary list should be sorted alphabetically	18.5.626
Suggestion	REP-616	Support Benchmark projects as a SmartHub source	18.5.676
Suggestion	REP-619	Global enduser/panelist filter	18.5.626
Suggestion	REP-640	After importing a report using fiscal calendar, the report is not working	
Suggestion	REP-649	Extend TODATE function to handle time as well as dates	18.5.728
Suggestion	REP-652	Possibility to access the enduser/panelist filter string via a script	
Suggestion	REP-711	Sort function on items in the end user portal: Sort by report number and keywords	
Suggestion	REP-723	Add option to Filter panel to select several filters before applying	18.5.1948
Suggestion	REP-725	Site level setting to set PDF engine	18.5.1997
Suggestion	REP-755	Ability to report on new system fields for device/channel/rendering used	18.5.1841
Suggestion	REP-758	Gauges: Polishing	
Suggestion	REP-773	display values or description for user level filter	
Suggestion	REP-777	Response view in Action Management should take into account "Exclude from reporting" flag	18.5.1997
Suggestion	REP-950	Reportal monitor available for company administrators	18.5.3270
Suggestion	REP-959	Ability to use table titles as tab titles in Excel 2007 exports just like in Excel 2003	18.5.3451
Bug	REP-129	Error generating table with extended engine: Coordinate -1 on axis 2 is out of bounds	
Bug	REP-171	Hitlist exception with Action Management program as datasource	
Bug	REP-200	Internal server error if there is date variable in filter on Filter Page	
Bug	REP-207	"Variable responseid not found" runtime error while using action management program data with verbatim tables	
Bug	REP-278	Internal server error if panel is attempted to be used for panelist permissions	18.5.142
Bug	REP-303	Excel 2007 Export task does not update running status	
Bug	REP-335	Highcharts: Axis settings are incorrect for scatter chart	18.5.626
Bug	REP-364	Filter expression based on hub with combined source returns error in Aggregated tables	
Bug	REP-377	CPU timeout error related to script on the Quadrant Table	18.5.214
Bug	REP-387	Bug when using ranking question in reporting	18.5.470
Bug	REP-390	"Self. Excl. Label" property is not saved in header property sheet	18.5.728
Bug	REP-412	endusers being greyed out in Reportal when user has system_enduser administrate permission	18.5.470

Issue Type	Key	Summary	Fix Version/s
Bug	REP-428	Cookie message not being displayed on the Reportal login screen	18.5.214
Bug	REP-435	When accessing a Reportal report where the project has been deleted link "click here" in the message is not working	
Bug	REP-459	Access denied after changing datasource from Bitstream to Reporting Data	
Bug	REP-465	Single view embedded in hitlist fails with "production database for project s... not found" exception on hub.	
Bug	REP-467	Unable to reorder questions in the Filter Panel designer	18.5.3270
Bug	REP-475	Error: Hub contains no path between elements of the aggregated table... in report based on multi explicit hub	
Bug	REP-481	PowerPoint slides fail to save in export template selection	18.5.48
Bug	REP-496	Highcharts in parameterized export packages	18.5.142
Bug	REP-505	InHierarchy filter returns empty dataset	18.5.216
Bug	REP-506	Filter panel display count based on wrong question when codes are the same in both filter questions	18.5.214
Bug	REP-513	Gauge returns "internal error" on click via report tree	18.5.214
Bug	REP-514	BitStream update gives erroneous data for respondent hierarchy variables	18.5.48
Bug	REP-524	Unable to enter Custom Titles in Aggregated Tables	18.5.728
Bug	REP-525	Unable to access Dashboard Link in IE11 when not logged in as Professional user	
Bug	REP-527	Cannot create Highcharts when using IE 11	18.5.895
Bug	REP-536	SmartView fails on multi-project data sources	18.5.214
Bug	REP-540	Singleview on placeholder using hub data sources doesn't show data	18.5.117
Bug	REP-544	Derived questionnaire parameter fails to work	18.5.626
Bug	REP-553	Discrepancy between table engine 1 and extended engine, for categorizations with avg. of individuals	18.5.470
Bug	REP-558	Individual records has "not answered" for particular variable	
Bug	REP-581	Survey Links in Hit Lists does not work when using Reporting Data or Smart Hub	18.5.197
Bug	REP-583	One of the bar chart rows in a table is displaying incorrectly when previewed or exported	
Bug	REP-589	Highcharts: Adding a render script in a chart causes chart and page object to return a blank page	
Bug	REP-590	Images from image upload questions displaying as broken links in Reportal Hitlists	
Bug	REP-592	Single View V1 gives error "Project x is not available for the data source" in published report	
Bug	REP-597	Unable to save Aggregated Table style	
Bug	REP-608	Unable to add categorized open text to filter	
Bug	REP-609	Special symbols in charts in Instant analytics reports are replaced by its codes	
Bug	REP-610	Mismatch between percents in chart in Instant Analytics	
Bug	REP-618	Survey link does not work and generates internal server error (Single view V1, Hub Datasource)	
Bug	REP-623	Basic panel cannot be selected in panelist permissions when report is based on Hub	18.5.470
Bug	REP-625	SmartView fails on multi-project data sources (view, not preview)	18.5.991
Bug	REP-627	Fix Expression dialog	18.5.470
Bug	REP-631	Duplicating a Smarthub-based report using option "duplicate datasource and replace project" works incorrectly	
Bug	REP-634	Override texts are not applied in hitlist Individual responses	
Bug	REP-635	HitList Individual Responses contain Loop title even it doesn't have response for Hub	18.5.686
Bug	REP-637	Secure survey link is generated for Single View element v2 when Override domain in survey urls is ON and Enforce https access to survey is OFF	18.5.728
Bug	REP-639	Disable wizard scripts for Explicit hub	18.5.1597
Bug	REP-642	Duplicate Data Source and replace project(s) - gives permission denied error	18.5.2193
Bug	REP-643	Search in Hitlists (both v1 and v2) doesn't appear to be working for single questions with index enabled	18.5.728
Bug	REP-644	Save Cluster / Cluster variables does not work with Explicit / Implicit Hub	18.5.2950
Bug	REP-645	Error loading data in reportal hitlist filter due to html in answer text or length of answer text	18.5.895
Bug	REP-651	HighCharts: Line styles not saved	18.5.728
Bug	REP-664	Zombie variables in Report tables	18.5.626
Bug	REP-665	End Users unable to access Action Management	18.5.626
Bug	REP-682	Permission issue: could not publish the report after having built a page on Action Management data	18.5.3270
Bug	REP-688	Issues with Date Picker in Filter Panel	
Bug	REP-689	Date filters work incorrectly if Dynamic Page Update is enabled	18.5.2296
Bug	REP-690	Search on date variables in hitlist version 1 does not work	
Bug	REP-693	Enduser doesn't see reports list on Landing Page in IE8	18.5.676
Bug	REP-698	Geo variables value formatting depends on source	18.5.831
Bug	REP-701	Reportal Monitor: page hits are logged under the wrong company	18.5.1597
Bug	REP-707	SingleViewV2 (hub): nested loop contains parent loop iteration	
Bug	REP-708	SingleViewV2: Incorrect rendering of multigrad as part of a loop	
Bug	REP-709	SingleViewV2 (hub): variables from folder in a loop are not shown	
Bug	REP-714	Explicit Hub with dynamic page update: Drilldown doesn't work in aggregated table	18.5.1948

Issue Type	Key	Summary	Fix Version/s
Bug	REP-716	Explicit Hub with dynamic page update: Scripts for reportal components don't work	
Bug	REP-718	Explicit Hub with dynamic page update: Page Navigator doesn't work	
Bug	REP-721	Individual records fields are not displayed in Single View on Hub	
Bug	REP-727	Unable to create Simple Filter in Datasource for a report whose data source is a professional panel	
Bug	REP-728	Reportal Table cache does not respect Personalized filter status setting when off	
Bug	REP-730	Override texts are not applied in hitlist Individual responses for loops	
Bug	REP-735	Incorrect count of noOfEmailsSent in table engine	18.5.1948
Bug	REP-736	Internal server error when normal user opens report with explicit hub as source	
Bug	REP-740	Reportal Login History: history is logged under the wrong company	
Bug	REP-741	Warning is constantly displayed in Charts in "Sub elements"	18.5.1789
Bug	REP-742	Incorrect export to Excel with Export package if there is report base in report	
Bug	REP-744	Highcharts: Line chart displays a line with value 0 for empty values	18.5.1948
Bug	REP-746	Radar Chart Series Overlap	18.5.1948
Bug	REP-749	Search functionality of Reportal hierarchy component sometimes yields incorrect results	18.5.2516
Bug	REP-750	Table bar charts not showing correctly in PDF export	18.5.1841
Bug	REP-751	Questions added to Hitlist through scripting not sortable or searchable (bitstream files)	18.5.2193
Bug	REP-752	Reportal HTML Source editor strips out <header> html tags	18.5.1829
Bug	REP-754	Report substantially slower on hub data vs bitstream data	18.5.2360
Bug	REP-757	Bitstream task fails intermittently	18.5.2210
Bug	REP-765	Remove help text missing for select PDF engine	18.5.2516
Bug	REP-772	End user filter: internal server error when selecting question from other datasource	18.5.1841
Bug	REP-775	Script loader returns question titles in wrong language	
Bug	REP-783	Error publishing report after removing a language from a report	18.5.2010
Bug	REP-786	Sort by Keywords doesn't work on Landing Page for endusers	
Bug	REP-791	Search on date variables in hitlist version 1 does not work	18.5.1789
Bug	REP-792	Incorrect active filter summary when "Before" date is selected with data picker component	18.5.1597
Bug	REP-793	Hierarchy selector does not work when using resizable charts	
Bug	REP-796	Reportal pagelink hide scripts are not evaluated on dynamic page updates	18.5.2326
Bug	REP-797	There are no questions from Loops in Personalized filter question option in Hub-based reports	18.5.2193
Bug	REP-799	"Task as Process fails" when creating a new report from a report wizard	18.5.1997
Bug	REP-800	End User Access page is lost for Active Dashboard once you give access to 1 Reportal Report	18.5.2565
Bug	REP-806	PDF Export "Fit to Page" not working for particular page	18.5.1597
Bug	REP-816	Enabling dynamic page update on some reports causes individual components to fail to load	18.5.1789
Bug	REP-818	Reportal Export - downloads option does not work when RVA username contains Cyrillic characters in the Username	
Bug	REP-837	Search on date variables in hitlist version 2 does not work	18.5.1997
Bug	REP-840	Filter number does not change in Filter Panel after click on "Apply" button	18.5.1997
Bug	REP-852	If HighChart was Saved as Radar - then there is not possibility to change Chart type.	18.5.2210
Bug	REP-857	Reportal Charts in Excel export are static, cannot be moved or copied	18.5.2565
Bug	REP-869	A comment at start of page will delete all non-visible content in IE	18.5.2569
Bug	REP-938	Sorting over multiple Categorizations is not working correctly for Bottom 3	18.5.2808
Suggestion	SE-488	Update CAPI Console download page and Menus to handle both Windows and Android downloads	18.5.214
Suggestion	SE-512	Automatically perform full sync on CAPI App login	
Suggestion	SE-527	Enable Sync Log on the CAPI App	
Suggestion	SE-541	CAPI App Settings: Show Console Name	
Suggestion	SE-559	Scripting function for determining CAPI device OS	18.5.264
Suggestion	SE-585	Display CAPI App info in Console Management	
Suggestion	SE-601	Visual distinction between test and live interviewing in CAPI App	
Suggestion	SE-603	Console management handling to accommodate for different O/S Versions	18.5.197
Suggestion	SE-604	Hints in survey settings and launching regarding JavaScript engine	18.5.142
Suggestion	SE-632	Allow CAPI Administrator to require device encryption as part of console activation	18.5.92
Suggestion	SE-633	When activating a device, check if device encryption is required	
Suggestion	SE-676	Deactivating console should cause app to only show activation screen	
Suggestion	SE-687	CAPI App logout: prompt for confirmation	
Suggestion	SE-696	Display License view on CAPI App	
Suggestion	SE-700	Synchronization of CCLs for CAPI App	
Suggestion	SE-728	Delete images on survey deletion or recreate DB	
Suggestion	SE-741	Survey DB SQL auditing setting	18.5.389
Suggestion	SE-745	Respondent data "I" value should automatically set interviewing language for CAPI	18.5.728
Suggestion	SE-753	Improved error message for Survey Launch failure when error is known	
Suggestion	SE-769	Mobile Image Upload for CAPI App	
Suggestion	SE-770	Store channel, device and rendering at respondent level	18.5.991
Suggestion	SE-772	Built framework API to access DB lookup tables via CCLs	18.5.991
Suggestion	SE-782	Database Encryption Certificates must be configured per database server	

Issue Type	Key	Summary	Fix Version/s
Suggestion	SE-785	GetQuestionIds, add filter for image upload questions	18.5.991
Suggestion	SE-794	More informative error message when survey launch fails due to invalid character in text	
Suggestion	SE-796	Function to return loop id, if a question is inside a loop	
Suggestion	SE-797	Add "Operation system" column to CAPI activation log table	
Suggestion	SE-806	New function to get URL for a redirected survey in router	
Suggestion	SE-809	lset does not work with JScript.ArrayObject or SurveyArrayList as parameter	
Suggestion	SE-827	Add devicetype to all engine interview transaction types in system activity	18.5.1891
Suggestion	SE-832	Hierarchy using dropdown UI does not display on external quick test after first page	18.5.1948
Suggestion	SE-833	Allow for survey GetRenderingMode function in Custom Code Library	18.5.1891
Suggestion	SE-838	Support event inputChanged on checkbox tick in searchable multi	18.5.1948
Suggestion	SE-842	Give SysAdmins and Pros role users the ability to generate CAPI Activation files for other companies	18.5.2326
Suggestion	SE-857	CAPI scripting function to return % battery available for Android	18.5.2326
Suggestion	SE-858	Support BCC and CC mising for SendPdfMail() scripting function	18.5.2761
Suggestion	SE-884	Parameter to add language to RedirectToRouterSurvey function	18.5.2761
Suggestion	SE-901	Extend .valueLabel() method to include a language parameter	
Suggestion	SE-908	Optimise Web Service calls to avoid performance bottleneck	18.5.2761
Suggestion	SE-910	Turkish language translation	18.5.2761
Bug	SE-161	Slider doesn't work correctly for questions with groups in answers	18.5.92
Bug	SE-215	Star rating (carousel) grid question causes a browser error in quick test and when the production link is used in an inline survey	
Bug	SE-461	Touch Rendering: Multiple Grid questions inside a 3D Grid with group header/end cause survey to fail.	
Bug	SE-576	Default sort order for surveys in survey list should be alphabetic on CAPI App	
Bug	SE-591	If the URL to an survey contains __extsid__ as a parameter it displays an error if not in the external creation mode	18.5.92
Bug	SE-617	Masking error with chained trigger question in mobile	18.5.92
Bug	SE-618	Iterating through a loop (randomized Answer list) with the Enhanced randomization enabled, and the ability to change answers is removed, after the first question is shown you will see a message saying you have already answered this question	18.5.92
Bug	SE-641	Error generated in Mobile survey channel when putting a page object in the start block with force desktop rendering enabled	18.5.92
Bug	SE-658	Italicized text disappears from IE in some cases (when error messages shown)	18.5.389
Bug	SE-661	"One question per page"-feature treats Flex folder questions as multiple questions	18.5.142
Bug	SE-662	Smartphone rendering - under certain conditions, logo does not appear on top bar	18.5.104
Bug	SE-663	Smartphone rendering: survey progress resets when using "Force Desktop Rendering" inside a loop	18.5.389
Bug	SE-665	Issues with validation when grid uses itself as a trigger	
Bug	SE-667	Group names are overlapped by slider	
Bug	SE-670	Mobile browser render scrollable div without visible scrollbar	18.5.197
Bug	SE-672	Quota counters reset when several users assigned the same CAPI survey	18.5.92
Bug	SE-675	GPS Permission needed for the app	
Bug	SE-704	Synchronizing CAPI consoles for companies with a large File Library can potentially take down your CAPI Synch servers	18.5.264
Bug	SE-735	Typo in French survey message	18.5.389
Bug	SE-737	Archiving restore fails when Survey Layout is not found and has Poet ID	18.5.389
Bug	SE-740	There is no body in emails from CAPI App	
Bug	SE-749	Numeric list Slider renders on top of right answer text	
Bug	SE-751	Turning on Vertical scroll bar shifts the scale in Grids when in low resolution / small screen	18.5.728
Bug	SE-754	Survey messages: Text added for "OK button text" and "Alt-tag text for image ok-button" are not applied to the survey	
Bug	SE-755	The "click here" link in the custom CSS stylesheet within the smartphones layout under the "edit mobile layout" leads to a "500: Internal Server Error"	
Bug	SE-758	JavaScript survey generates incorrect bug report on quick test cleanup	
Bug	SE-760	Sample only survey on re-entry: JSON is displayed when redirecting before visible node in mobile channel	
Bug	SE-784	Use images in answers images are not displayed in smartphone rendering for scales	
Bug	SE-787	trapBrowser function not returning the right browser type/version information for IE11 Respondents	
Bug	SE-788	Ranking question generates internal error when respondent enters leading zeros	
Bug	SE-791	Multi node property Answer required is overwritten if Max number of items is selected	
Bug	SE-792	Launch survey does not check if system/reserved keyword are used	18.5.1597
Bug	SE-795	Grid with one answer and "other specify" set cause error in Smartphone rendering	
Bug	SE-798	L question doesn't set correct language in mobile CAPI	
Bug	SE-801	Slider doesn't work properly if the group header is the first in the answerlist	
Bug	SE-808	Test database launch throws off production quotas in some cases	
Bug	SE-812	Open texts with resizable auto auto-expands excessively in IE9-11	

Issue Type	Key	Summary	Fix Version/s
Bug	SE-814	Searchable multi fails to load more answer options for complete respondents	18.5.1891
Bug	SE-816	Formatting assistance behaves strange in latest Chrome and Firefox	
Bug	SE-823	Acessibility "survey progress" caption for several languages e.g. French and Portuguese is missing a ' ' (space) in the end	
Bug	SE-826	Searchable multis fail in CATI interviewing	18.5.1891
Bug	SE-830	Survey can't be launched if you change a number of decimal places in numeric question	18.5.1891
Bug	SE-831	GetQuestionIds does not return question ID if it contains capital letters	18.5.1891
Bug	SE-835	Numeric formatting assistance behaviour	
Bug	SE-836	Touch rendering causes same loop iteration to be executed twice	18.5.1891
Bug	SE-837	AddRespondentToCati function causes a sync queue error when used in quickest	18.5.1891
Bug	SE-840	Touch Rendering: non-deterministic group header lookup	
Bug	SE-843	Edit of reusable scale/list causes quota categories to reset to any	18.5.2761
Bug	SE-845	Incorrect open text formatting assistance behaviour when deleting selected characters	18.5.2326
Bug	SE-853	Survey aborts on Condition nodes when using JavaScript engine in CAWI	18.5.1948
Bug	SE-854	Scale group header causes error in mobile optimized rendering	18.5.2470
Bug	SE-855	Searchable multi does not always work correctly on letters with accents	18.5.2761
Bug	SE-860	Wrong translations for language dropdown in survey messages	18.5.2470
Bug	SE-861	Auto-sum and sliders on a numeric list prevents the question from appearing - smartphone devices	18.5.2326
Bug	SE-862	Survey triggered quota fulls in quota with no limit set	18.5.2761
Bug	SE-889	CapiApp: Date questions in desktop rendering doesn't work without internet connection	
Bug	SE-892	CCL does not work in Quick Test on Octopus deployed servers	18.5.2749
Bug	SE-897	Simple Chinese character 𠄎... (unicode#20869) is used instead of Traditional Chinese character 𠄎... (unicode#20839) in survey messages for Traditional Chinese language	18.5.2761
Bug	SE-899	GetQuestionIds does not return id's of multi questions if they contain answer options specified as 'Other'	18.5.2761
Bug	SE-900	RDG fails to answer all question rows in a Multi Grid	
Bug	SE-902	Quota Recalculate All task fails to complete	18.5.2761
Bug	SE-906	Survey launch fails if a QID called "USER" exists	18.5.2761
Bug	SE-914	Multiple searchable multis in a Page Element not working	
Bug	SE-918	CATI quota controlled call delivery fails to remove calls for closed cells	18.5.3118
Bug	SE-941	Random Data Generator works incorrectly with self referenced tables in hierarchies	
Bug	SE-942	Surveys crashes when Farsi language is used in combination with Loop objects
